GOLD LEAVING FOR EUROPE.

on Steamers To-Morrow.

The gold shipments by to-morrow's ropean steamers will aggregate at ird Freres, \$1,500,000; Baring, Magoun & Co., \$500,000; faskler, Wood & Co., \$800,000; Ladenurg, Thalman & Co., \$500,000, and Kid-

urg, Thalman & Co., \$500,000, and Kider, Peabody & Co., \$500,000. The effux excites no apprehension, as the freasury gold reserve is above the inndred million mark, and the shipments are made in anticipation of the netrest and dividends due Jan. I on securities held abroad. The scarcity of commercial bills is, of course, primarily responsible for the outward movement if the yellow metal.

The inquiry from remitters from these banks is said to be so great that with a premium of 15 cents on New York, it is cheaper to ship gold than buy. New York bankers' exchange commercial bills command higher rates in comparison; 487 5-8 was paid for sixty-day bills, with collaterals hypothecated for payments. The gold will probably be withdrawn from the Sub-Treasury.

Gold to the amount of \$1,550,000 has been withdrawn from the New York Sub-Treasury.

MORE TRINITY TENEMENTS.

A Further Investigation Reveals Added Neglect.

The inspectors of the Board of Health to-day turned in reports on thirteen more Trinity corporation tenements tha they had inspected. The houses at 264 West Houston street and at 447 Canal street are in particularly bad shape. Col. Cruger the representative of the Trinity corporation called on the Health Board to-day and complained that the comparison of the death rate of the Trinity tenements with the other tenements of the city showed the corporation property in an unfavorable light. The Colonel said that every report or complaint made by the Board had been investigated by the corporation's inapectors, and repairs to the property had been made according to the recommendations of the Board's inspectors. When asked how it was that the facts showed the corporation property to be so bad, Col. Cruger made no reply.

Dr. Edson said that the Arinity corporation had not always carried out the recommendations of the Board.

Dr. Edson said that the Trinity corrieft that he had also compared the death-rate of the Trinity tenements with the death-rate of other tenements, and the result showed against the Trinity property unfavorably. Trinity tenements with the other tene
